

ALEX JOHNSON

STRENGTHS

💡 Test Automation Expertise

Strong understanding of test automation frameworks and methodologies.

🗣️ Effective Communicator

Excellent communication skills, able to articulate complex technical concepts clearly.

💡 Problem Solver

Proficient in identifying and solving problems quickly and effectively.

KEY ACHIEVEMENTS

✓ Improved Test Coverage

Successfully led an initiative to enhance test coverage from 60% to 95%, resulting in fewer production issues.

⚡ Increased Automation Efficiency

Reduced automation testing time by 50% through effective script optimization and tool integration.

SKILLS

Hard Skills

Selenium · Cypress · Playwright · JUnit ·
TestNG · Postman · RestAssured ·
Python · Java · Jenkins

SUMMARY

As a dedicated QA/Test Automation Engineer with over 5 years of experience, I specialize in both manual and automated testing. My expertise includes tools like Selenium, Cypress, and API testing frameworks. I take pride in my ability to enhance testing processes, reduce defect leakage, and improve overall software quality through innovative solutions and effective testing strategies.

EXPERIENCE

QA/Test Automation Engineer

07/2021 - Present

Tech Innovations

City, State

A leading tech company focused on innovative software solutions.

- Developed and maintained automated tests using Selenium and Cypress, increasing automation efficiency by 40%.
- Integrated automated tests into CI/CD pipelines with Jenkins, reducing release cycle time by 30%.
- Conducted API testing using Postman and RestAssured, improving defect identification early in the development process.

Test Engineer

01/2020 - 06/2021

Software Corp

City, State

A software development firm specializing in enterprise solutions.

- Implemented test strategies leading to a reduction in defect leakage from 10% to 2% in production.
- Utilized JUnit and TestNG for unit and integration testing, improving overall product quality.
- Collaborated with Agile teams to ensure quality at each stage of development using Jira for tracking and documentation.

Junior QA Automation Engineer

01/2019 - 12/2019

Quality First Solutions

City, State

A QA consulting firm delivering testing services to various clients.

- Wrote automation scripts in Python that reduced manual testing efforts by 50%.
- Participated in daily stand-ups and retrospectives ensuring that quality was maintained in Agile sprints.
- Provided training and mentoring to junior testers on automation strategies and best practices.

EDUCATION

Bachelor of Science in Computer Science

08/2016 - 06/2020

State University

City, State
