AJ

SUMMARY

I am a dedicated Cybersecurity Analyst with over 3 years of experience in network and application security. My expertise lies in utilizing SIEM tools like Splunk and QRadar for threat detection and incident response. I have successfully implemented security policies, conducted penetration testing, and managed vulnerability assessments, consistently enhancing the security posture of my organization.

EXPERIENCE

Cybersecurity Analyst

CyberSecure Solutions

06/2022 - Present Remote

A leading company specializing in cybersecurity solutions for diverse clients.

- Utilized SIEM tools (Splunk, QRadar) to monitor and analyze security incidents
- Led vulnerability management initiatives and performed regular risk assessments
- Collaborated with cross-functional teams to implement security policies and standards

Junior Cybersecurity Engineer

Secure Tech Inc.

06/2020 - 05/2022 New York, USA

IT solutions provider focused on ensuring client security through advanced technologies.

- Conducted penetration testing to identify and exploit vulnerabilities in applications and networks
