SUMMARY

With over 8 years in software engineering, I excel at developing full-stack solutions using Agile methodologies. My greatest achievement is creating a secure, scalable system for financial transactions, resulting in a 25% increase in processing efficiency.

EXPERIENCE

Full Stack Software Engineer

Tech Solutions Inc.

01/2019 - 09/2023 Columbus, Ohio

- Led the development of a major financial services platform, increasing transaction processing speed by 25% and improving user satisfaction ratings.
- Implemented a comprehensive security protocol that reduced vulnerability incidents by 40% over two years.
- Collaborated in cross-functional teams to develop innovative solutions, resulting in a 15% decrease in system downtime.
- Utilized Agile methodologies to spearhead the rapid development of new features, enhancing product release cycles by 30%.
- Orchestrated client requirement gathering sessions, leading to automation improvements and a 20% enhancement in workflow efficiency.
- Conducted code reviews and mentoring sessions, elevating junior developer code quality by 50% in six months.

Software Developer

Innovatech Corp.

09/2015 - 12/2018 Columbus, Ohio

- Developed a high-traffic e-commerce platform, resulting in a 20% increase in year-over-year sales.
- Integrated new API functionalities, expanding system capabilities by 30% and reducing integration times by 40%.
- Streamlined CI/CD pipelines, reducing deployment times by 50% and decreasing troubleshooting instances by 20%.
- Implemented machine learning algorithms, enhancing product recommendation accuracy by 25%.
- Facilitated cross-departmental collaboration, leading to enhanced feature set that improved client retention by 10%.

Web Developer

Digital Ventures

06/2012 - 08/2015 Columbus, Ohio

- Developed responsive web applications, increasing user engagement metrics by 22% in the first six months.
- Optimized website codebase, resulting in a 35% decrease in page load times and improved SEO performance.
- Collaborated with UI/UX teams to enhance design aesthetics, increasing average user session length by 20%.
- Participated in code refactoring initiatives, standardizing code across applications and reducing technical debt by 15%.

EDUCATION

Master of Science in Computer Science

The Ohio State University

01/2014 - 01/2016 Columbus, Ohio

Bachelor of Science in Software Engineering

University of California, Berkeley

01/2010 - 01/2014 Berkeley, California

KEY ACHIEVEMENTS

Company Innovation Award

Recognized for developing an unprecedented scalable system that improved company processing capacity by 30%.

Agile Leadership Excellence

Led a project to integrate Agile across teams, resulting in a 25% acceleration in development timelines.

Tech Excellence Award

Achieved for increasing software deployment efficiency by 40% through strategic CI/CD overhauls.

Client Satisfaction Recognition

Acknowledged for improving client interaction processes, leading to a 15% rise in customer satisfaction scores.

SKILLS

Java Python C# C++ .NET

JavaScript

COURSES

Advanced Java Programming

Completed through Coursera, focusing on Java design patterns and best practices for enterprise solutions.
