STRENGTHS

- ✍️ **Analytical Thinking**
Strong analytical skills for troubleshooting network issues effectively.
- ★ **Communication Skills**
Excellent communication skills to convey technical information to non-technical stakeholders.
- 💡 **Scripting Proficiency**
Proficient in scripting and automation, enhancing efficiency in operations.

KEY ACHIEVEMENTS

- ✓ **Network Optimization Project**
Successfully optimized network performance resulting in a 30% increase in uptime across enterprise systems.
- ☆ **Security Enhancement Initiative**
Implemented a series of security patches that prevented major vulnerabilities, enhancing network security significantly.

SKILLS

Hard Skills

Windows Server Administration ·
Linux Server Management ·
Network Configuration (Cisco, Juniper) ·
Virtualization (VMware, Hyper-V) ·
Cloud Networking (AWS VPCs)

SUMMARY

I am a dedicated System Administrator and Network Engineer with over 4 years of experience in managing enterprise networks and IT infrastructure. My skills include Windows and Linux server administration, coupled with extensive knowledge in network configuration, virtualization, and cloud networking. I am passionate about optimizing system performance and enhancing security, which I have demonstrated through impactful projects.

EXPERIENCE

System Administrator / Network Engineer 06/2019 - Present
Global Tech Solutions Los Angeles, CA

A leading provider of IT solutions with a focus on enterprise-level infrastructure management.

- Managed and maintained enterprise-level Windows and Linux servers.
- Configured and monitored network devices using Cisco and Juniper hardware.
- Implemented security patches and optimized network performance to improve uptime by 30%.
