SUMMARY

As an AI/Machine Learning Engineer, I have a profound passion for developing cutting-edge AI solutions. My expertise includes building and deploying ML models for predictive analytics, computer vision, and NLP. I thrive on challenges and aim to improve model accuracy while optimizing performance. My educational background and hands-on experience in various AI projects have equipped me with a robust skill set.

EXPERIENCE

AI / Machine Learning Engineer 06/2022 - Present
ABC Technologies San Francisco, CA

- A leading tech company specializing in AI solutions for business intelligence.
- Developed and deployed a machine learning model that improved classification accuracy by 20%.
 - Utilized AWS SageMaker for model training and deployment, reducing operational costs.
 - Designed data pipelines for efficient data preprocessing and feature engineering.

Machine Learning Research Intern 01/2021 - 05/2022
Tech Innovations Ltd. Austin, TX

- Innovative startup focused on data-driven AI solutions.
- Collaborated on a computer vision project that reduced inference time by 30%.
 - Participated in Kaggle competitions, achieving top 5 rankings in multiple challenges.
 - Implemented TensorFlow and PyTorch frameworks to enhance model performance.

EDUCATION

B.Tech in Computer Science 08/2018 - 05/2022
XYZ Technical University New York, NY

LANGUAGES

English Native ●●●●● Spanish Advanced ●●●●●

STRENGTHS

- Technical Proficiency**
Exceptional understanding of machine learning algorithms and frameworks.
- Data Interpretation**
Ability to translate complex data sets into actionable insights.
- Project Management**
Strong project management skills, ensuring timely delivery of ML solutions.

KEY ACHIEVEMENTS

- Model Accuracy Improvement**
Improved a predictive analytics model's accuracy by 20%, which led to enhanced business decision-making.
- Kaggle Competition Success**
Achieved top 5 rank in a Kaggle competition, showcasing ability to apply innovative ML techniques.
