## Professional Summary

Motivated and detail-oriented B.Tech Computer Science student passionate about **Data Analytics, Machine Learning, and Visualization**. Adept at leveraging tools such as Python, SQL, and Power BI to extract insights, interpret trends, and present actionable findings. Eager to apply academic knowledge to real-world analytical challenges and contribute to data-driven solutions.

## Technical Skills

**Programming:** Python, SQL, R, C++  
**Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn  
**Tools:** Power BI, Tableau, Excel, Jupyter Notebook  
**Databases:** MySQL, PostgreSQL  
**ML Techniques:** Regression, Classification, Clustering, Model Evaluation

## Certifications

Google Data Analytics Professional Certificate – Coursera (2024)  
Python for Data Science – IBM Skills Network (2024)  
Data Visualization with Power BI – Udemy (2023)

## Achievements

- 1st Place – Inter-College Data Analytics Hackathon (2024)
- Top 5% in Kaggle “Beginner Data Cleaning Challenge” (2024)
- Member – Data Science & AI Club, IIT Delhi

## Soft Skills

Analytical Thinking  
Problem Solving  
Collaboration & Communication  
Time Management  
Continuous Learning

## Education

**Bachelor of Technology (B.Tech) – Computer Science and Engineering**  
Indian Institute of Technology, Delhi (IIT Delhi) 2022 – 2026  
**CGPA:** 8.6 / 10.0 (Till 4th Semester)

## Projects

- Student Performance Prediction (Machine Learning)** *May 2024 – Jul 2024*  
Developed ML models to predict academic performance using study behavior and attendance data.
  - Cleaned and analyzed datasets using Pandas and Seaborn.
  - Implemented Random Forest and Linear Regression; achieved 89% accuracy.
  - Created data visualizations to interpret performance factors.
- COVID-19 Data Insights Dashboard** *Jan 2024 – Mar 2024*  
Analyzed large-scale public health datasets to uncover regional trends and vaccination effects.
  - Processed data using Python and SQL.
  - Built dynamic dashboards in Power BI to visualize key metrics.
- E-commerce Sales Analysis** *Sep 2023 – Nov 2023*  
Created a Tableau dashboard to analyze sales and customer engagement data.
  - Applied SQL for data extraction and transformation.
  - Identified performance gaps and visualized sales growth trends.
